

Randy Olson
Enterprise RESTART
HOST House

Cambridge Academies closed out its 14th year serving, teaching, transforming and strengthening California's underserved individuals and families. We take seriously our role as "positive change" facilitators and continue evolving our programming to best serve agricultural laborers, the homeless, veterans, and previously incarcerated individuals so they can all elevate the quality of their lives and of their relationships.

Implementing our program plans and grounded on solid research and best practices, we work every day to ensure **that our students experience the most effective, vibrant and innovative approaches to life transformation and workforce readiness that will lead to self-sufficiency and for many, family reunification.**

The pages that follow highlight our 2018 efforts and set the stage for what's to come.

To our numerous partners, supporters, donors, sponsors, volunteers, staff and friends who made our 2018 programs, initiatives and events possible – THANK YOU!!! You are our champions and we look forward to continue working together with you in 2019 and beyond.

OUR MISSION

Our mission is to provide programs, classes, coaching and connections that transform, empower and equip individuals with the mindset, skills and habits needed to facilitate their financial self-sufficiency and personal, family and community well-being.

ATTENTIVE TO THE NEEDS OF OUR STUDENTS AND COMMUNITIES

“The class has provided me with hope, joy and the feelings of self-worth that I had forgotten about.

I have confidence, enthusiasm and goals for my future. I learned that I am OK and normal and can do anything I set my mind to.” DW

We offered the Enterprise RESTART Program to families, incarcerated and homeless individuals in Modesto and Patterson, CA.

The Enterprise RESTART program is at the core of our transformational programs and interventions – whether taught and facilitated as external classes two or three times per week or as part of the clean and sober transitional program offered at the Patterson site. We are encouraged by the steady 70% success rate we experience with each of the cohorts we serve.

Modesto Main Office

Classes and coaching sessions to families of incarcerated individuals, and to those needing a fresh start in life.

Stanislaus Safety Center

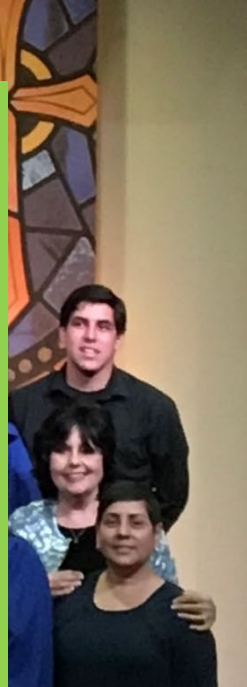

Transformative classes to incarcerated men and women and to those on probation.

Patterson H.O.S.T. House

Residential life transformation and workforce development program plus night shelter for homeless men.

HIGH SCHOOL EQUIVALENCY CLASSES AND CERTIFICATION

We help farm workers and their families study for and obtain high school equivalency certifications thanks to a federal grant received from the Department of Education.

Partnerships with the Housing Authority, school districts and Self-Help, LLC allow us to use their community-based facilities to serve our students close to their homes.

Many of our students are stay-at-home mothers who want to model for their kids the importance of education and commitment to hard work to achieve one's goals. **Ninety-five percent of our graduates sign up for ESL classes following their graduation, many receive promotions within their work environments and a few seek and obtain employment that betters their lives.** Some of our *homeless RESTART* program participants qualify for the program so we offer tutoring at HOST House as well.

The age span of our High School Equivalency program students varies between 18 and 65 and due to the low educational preparation that some of our students start the program with, it may take them 2 years to complete the courses. Some individuals, however, already have a solid educational background and even degrees in their countries of birth so they complete the classes in just a few months.

"This program has given me the opportunity of a lifetime. It has helped me to know myself better and learn that with effort and dedication everything can be achieved.

Obtaining my GED gives me the opportunity to get a better job and to continue improving my education. I thank my family for the great support they have given me in this decision to go to school. I am very grateful to God, my husband and my daughters, for their support.

Thank you very much to my teachers and to Cambridge Academies. May God bless you.

Sylvia G.

Workforce Development Service to the Community

Enterprise RESTART participants learn work skills and ethics, volunteer on a weekly basis as well as clean parks, alleys and city streets. They also learn entrepreneurial skills which help them develop a small service business.

"I have been homeless for many years and I've been to many shelters in this county, in others and in other states. This place is different. You are not processed as a number or as another dirty homeless that comes to spend the night. People here listen to you, talk to you, try to understand your situation and make you feel like a human being. I'm starting to have hope. I will do whatever I need to do to be accepted into the residential program."

*Tom, Night Guest
HOST House Shelter*

NOTE: Tom was accepted into the residential program, met every attitude, behavior and work expectation and now has a job as a long-haul truck driver. He visits HOST House frequently to encourage others and to enjoy his new church family in Patterson.

Naomi's House

A Shelter and Transformation Program for WOMEN

NO Woman Should
Live in a Cage!

There are approximately 25 women experiencing homelessness in the City of Patterson - *many with children*. Most women live at the "Cages" (*pictured on the left*).

Naomi's House was designed to house both female night guests and also offer a clean and sober transitional living environment for 15 women who want to transform their lives and reconnect with their families, become better mothers and work toward financial self-sufficiency.

We are grateful for the churches, businesses, schools, government agencies and other non-profit organizations partnering with us to make Naomi's House a reality by Thanksgiving 2019.
